TABAIGA.

G. - Kaip mane giwa matot, ne zinai apie ka sznekat.

S. - Teip - tu zinai, o kas sueme no žmoniu pinigus ir ne atidawi waldzei, tai teip broli, darbar tu zinai, (in žandarus) imt jin ir suriszt. (žandarai ima)

G. - Ale paaukit asz ne....

S. - Gana szneket. (iszeina podeszinei)

Scena III.

A n u p r a s i r O n a .

Ineina gonkom.

O. - Tewe, szendien atejo wałanda, ale asz ne turu tiek siłos, kad jiam ta atsakit.

A. - Kaip tai? Ar tai da ne nori už jio eit, asz matau po tawo apsiejimu su juom, kad tu jin fabai mil. Ir duodu taw žodi, kad jegu jiam atsakitum, užduotum man sopuli smertelna.

O. - Darikit kaip norit, ale tuom kart pakūsnis jums but ne galu.

A. - Asz zinai, taw eina apie wiera. Nieka taw ne liepe priimt wiera prawosławna, kožnas gali sawo wiera pildit.

O. - Wierso jokiu spasabu ne permanentne, ir už prawosławno neicze ale tas ner ant perszka dos ne wienan ne kitas. Władimiras wisai ne ira prawosławnu. Jis ir likos iszvaritas, teip kaip ir daug kiti, ale szimta sīk nefaimingesnis už kitus. Jin sikiu su motina, tirkas jio tewas atidawi maskolu razbainikams, motina jio tuojaus nagaikom užmusi, o jin atidawi in waiska.

Anupras a.s. labai susigrudines.

A. - Ka asz girdziu. - Władimiras, tai, tai ... tai jis! dabar asz jin pažinstu. (su skausmu szirdies) O! beda man senam.

O. - Ar-gi ne teisibe, kad Władimiras ira neilmingas, nera kad kas jio pasigaletu. (deda wiena ranga ant peties tewui) ir pawadintu jin sunum. Jagu tewas ir giwena kur. (Anupras atsitraukie no Onos, dengdams rankoms weida) Ar ir jums szirdis skausta, tai geriau ne kalbekim apie tai.

Anupras isz gialestio pradeda werkt.

A. - Szirdis man pliszta ir akis aszaronis iliejei isz gialestio. (in sawe) Diewe už ka mane teip baisei koroji.

O. - Teisibi kad ne esmu pakūsnis jusu nonram, ale ar-gi galu kai padarita prisiega snaušait. Akise Diovo oczekautu pavicia Stanislawo. O jagu jis ne giwena, tai liksiu wiens igi smert.

A. - Asz panewale tawes ne werecziu prie to, darik kaip tu iszmañai, ba esi mokinta ir protina mergaite. Ale ne niekink jio ir milek jin kaip broli. (a.s.) Szirdis man alpsta, neisztaiki su tolauš. (iszeina) Už wałandos sugrissiu. [iszeina po deszinei]

Ona pati wiena.

O. - No tewo iszsiluosawale, ale ka asz jiam pasąkisiu, ar turesi tiek pajegn. Nefaiminga ka-leina ant manes atejo, kad nenorodama turu padidint jio sopolus. Matit, kad toks Diewo palikimas ir mes esame sutwerti ant wargu ir sopolu. (atsigrizta in deszine ir pamato Stanisłowa, kuris stovi pecejus atsiresm in medi, rankas su-sidejes ant krunite, Ona iszdueda balsinga riksma) Ach Stanisłowa! (eina prie jio rankas isz tesus) Stasiuti, tu mano brangiausies Stasiuti! (noru jin apskabint)

Stanisłows traukesi in szali.

S. - Ne siartink prie manes! ba jau asz ne tawo!

Ona nusidivijus.

O. - Stasiuti, ka tas wiskas ženklinia?

S. - Ka ženklinia? ir da tu dristi klausit ka ženklinia? Ha, ha, ha, gera isz tawes aktorka, pries wałanda gniaužesi su maskolum, o dabar lenti prie biedno Siberoko. (su skausmu szirdies) Oh! Ona, Ona, niekad ne mislinau, kad tu teip padaritum. Ir kad ne buce mates sawo aki-mis, niekad kitam ne wiericte, kad ta Ona, ka-dawi karda in ranga, kad eit muszt maskolus ir gint tewine teip padarit! Ir ta Ona, sesuo tu brolu, ka waijto tamuose urwuse Siberijos, ir kuriu kauflai baltejo metosi pustinej Siberijos, likos milemą maskolau.

O. - Stasiuti, dabar suprantu apie kęcina, ir duok man nors keliu žodžiu isztart sawo apsigime.

S. - Ar-gi tu gali turet da koki nors apsigimina. Nemislik, kad asz szendien cion ateju. Dabojau jis dangiau kaip nedele laiko. Ir ne-galedamas ilgiam iszlaikti, o noredams ta weta apliest, pastanawijau taw pasakit, ant ko nusipelnai. Esi moteriske be duszios ir newerta esi wadintu duktore motinos Lietuwos. Atmink kad paniekiminas ira nedaikimas žodžio, ira szimta sik biaurusi už bjaurie [noru eit.]

Ona užstoja jiam.

O. - Stasiuti, neis iż cion, pakol ne persi-trkrini apie mano nekaltibe. Gali mane at-stumt no sawes, nes niekad ne mislik kad asz ta-we paniekinau ir užmiršau. Ir ka asz sakisiu, turi manes klausit. Teisibi wajkszciojau keliu sikiusu su tuom žmogu, ka wadini maskolum ir ir mano milemu. Ach! Stanisłowa, tai ira di-del klauda. Ar tiki, kad ne tas žmogus, bu-tum daugeu ne matias sawo. Onutes, kuri tawe mili teip, kaip ir pirma septiniu metu.

S. - Ar-gi galima ira tiket? asz labai ge-

rai zinai maskolus.

Scena IV.

Tie pati is Władimiras
Władimiras kuris ta wiska girdejo.

W. - Perpraszau, ir noru su ponu Stanisłowa keleta žodžiu pakalbet. Man rodos, kad sa-wo milema iszpuola wissi kitaip priimt, ba ije-ant kitokio priemimo nupelnai.

Stanisłows a.s.

S. - Ach, kokis tu mandras. (garsei) Sak-ki, ko norit no manes, leiskit manę eit, asz ka-turejau pasąkiau, ir wissi jums ne perskadi-nu.

W. - Tai paguodai moteriszke, tai to ne iszpuola wissi szneket. Asz stoju apginime ijos, ir jeigu ne szewnowo ijos, tuojaus paklausce kokuu smerzu nori uirt.

S. - Nemislik, kad asz nusigasius. Reikalaun ju smerties i ant to esmu gataswa. Duok ginkla o tegul greiczaū ūbaigiai giwaste. Priesz ta, ka dabar matau, lengwesni ira smertis lencigai arba Siberije, ne kaip giwastis.

O. - Stanisłowi.

S. - Ane žodžio daugiau, ko dabar stowite? kiba jis gailestis apem ižiunt in biedna Siber-ka. [in Wład] Bijai? ne paduodi ginkla, ba ži-nai, kad tokis szaudit moka.

Władimiras a.s.

W. - Diewe, ar-gi to sugriau in sawo tewine, idant praliet brołiszka krauja. (po wałar daili) Ne dristu pakēt rankas priesz taweb, ba es-miu kaltas. Pamilejan Ana isz cielos szirides, ale dabas szimta sīk geriau ija szewnowo uz tai, kād mili ta, katas gina sawo tewine. Dabar li-kit sveiki. Lik ir tu brangi tewine mano, ne man czion wietos. (meta szoble ir maksetis) ir-eira prie Stanisłowa Paduok broli ranka ir ži-rek, jog asz ne esmu maskolus, ale ligus taw, wargdienis Siberokas, iszwaritas isz tewines.

O. - Stanisłowi, ne buk tokis, ir ne sudik zmogaus jio neiszkaſės.

W. - Daugiau ne turu ka szneket, tik da-siki passakau: kad Ona ira nekaita kaip lelijia Szewnowok ir milek jis kaip ije taweb, o busite ūaiminges. Bikit sveiki, tegul Diewas jums laimina!

(nor iszeit gilumo, kur sutinka Anupra.)

Anupras gilumo budamas girdejo ta wiska.

(Ir sužaik jin] A - Neiszies iż cion netu-redams prigulinicos tame užmokesčia. [In Sta-nisłowa] Stanisłowi susižaikik pikture ir ūau-ga.

S. - Tai passakig -gi seni, ka tas wiskas žen-klina.

A. - Žiurek ant manes ir mano bałtos gal-wos, isz ka paeina, ar tai ne isz rupesčio. Gailiuosi, ale jau po laik (uzlažes rankas užden-gi) weida, po wałandai puoli ant kelu priesz Ona ir Władimira) Dowanokit man waikeliai, asz užmuzes jusu motina ne kałta kaip Aniofa....

Ona eina prie tewo.

O. - Tewe sakiki atiszku.

Anupras atsikeles stowi in widuri, Ona po kairei, Władimiras po deszinei.

A. - Sunau! praboczi man....

W. - Kaip tai? ar tai mano tewas esi? Te-wel kas prajo to nu sugri.

A. - Stanisłowi, atiduoniu taw duktore to-ke, koke palikai ir padekawok sawo busanczem szwogeriai už iszgelbejima ijos no smerties. Asz jis buwan iszware, o jis sugrizo ir da mus nog smerties iszgelbejo.

S. - Nes suprantu dabar wiska, ale dasimis-liju.

Ona a.s.

O. - Dabar wiska suprantu, Atradau sawo broli ir taw Stanisłowa. Ach, kaip esmu laimina (apsikabino Stanisłowa paskui Władimira, faike tos scenos po deszinei girdet tarszkima lenciegu.)

S. - Ka tai ženklinia?

A. - Tai wel nauji Siberokai.

Scena V.

Ineina gilumo waitas ir keli arestantai surakin-i, teliencjugas ir už ranku surisztis wiens prie kito, waromi per keturis žalnierių. Ona Anupras ir Władimiras traukesi po kairei.

W. - Duokt paskutini karta pubuciuot ze-mę, ant kurios užgimiau ir atsisweikint pa-cze waikus ir pažinstamus. (eina artin klaupia ir baciuoja žemę.)

Scena VI.

(Ineina Szaltszis ir Smira, inweda Gurgulis.) Szaltszis in waita.

S. - Niekad kume ne mislinau jis teip pa-matit.

W. - Dowanokit wisi jagu kam esmu kałtas, ba jau dabar esmu ten, isz kur ne gali sun-grizt (pamaty po kairei žmoniu) Ir jis Anupras ne piki ant manes, ba jagu ka bloga dareu, tai wis per inkalbejima (Gurgulio,

Anupras spaudžia ranga waitui.

A. - Ne asz ne mano dukte ant jusu ne pik-stam.

Szaltszis in waita.

S. - Atwiedzian in cion ir raszininkia dow-a-nokit ir ijam, be ne poilgiam ir jis ten kelaus.

W. - Tęi ko mes su laukem. Dowanoju taw wiska, kur mano pati ir sunus?

S. - E, geriau ne klausite.

Žalnierių: - Gana jat to, marsz in kelonia. (isza-na po kairei)

Waitas uždenges akis rankoms.

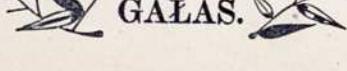

W. - Sudiewu mano tewine sudiewu Lietu-wa (werke ir iszeina)

Motiejkas po deszinei ineina apdriskes suodinas.

M. - Kur mano tete, [pamaty iszineančius, bega paskui jiuos] Atadukeit man mano tete (žalnierių atstumi, jis puoda) Diewe.... [mir-szta]

A. - Ir wel wienas negiwas, Sakau jums waikai, giwenkit sutikime ir milekites kaip bro-lei, matote patis in ka inweda nesutikimas, ir ne-iszduoklin wienas kito maskolems, Diewe atleisk man be ar asz tokis esmu. (klaupe)

Uždanga nusileidze.

GAŁAS.

Pasikalbejimas

trilkos wiruot moteriu ir wienos naszles.

Parasi D. T. B.

Mano mieli paklausik, Wisi auses pastątik, Trilius moteriu suejo, O wiriause teip kalbejo:

Dabar kožna izm moters, Apie sawo wira nutars, Paklausikai kaiminkes, Kokios kałbos tarp iju keles,

Pirma pati.

Ilgai su wjru giwenu, Niekad su juom nesibar. Tegul giwena ilgjaus, Del manes wis bus geriaus.

Kedua pati.

Kad numirtu, biedna likze, Ba sena, wirams ne tikeze, Žinai, wirai ne žiuretu, Su sena nieks ne nesmeketu.

Trzecia pati.

Az sawiškjo girt ne galu, Muszis pakeltie ne galu. Usz ka muszkie jis ne turi, Tiktai sako: ikgai guli.

Nuołat bestia szaukia mesos,

Žmogus turi eit isz galwos, Jauti jis sudstu ciela, O cze isz kur paint mera.

Čwierć pati.

Az sawo peiktie ne galu, Ipacz pagirtie galu, Zodžio pikto ne pasako, Ne pries mane nesistato.

Kwint pati.

Kaip iszmei karwes melze, Kaip uszpikstu, tai jis meldze, Wiska dirba, ka tili liepiu, Bijo, kaip tis issziszepiu.

Jis su maniu apsieit moka,

Kad ir lieptau szokt, tai szoka, Ka iszwerdu, turi walgit, Waikus nesiot, kiaus ganit.

Šeściu pati.

Ne žinai ar kitam patiktau, Jagi kito paczka liktau, Praszau Diewo giwentu, Ir da ikgai man tarnaute.</

Kaip kriauczius Filips Muse likos karalum.

Filipas Muse, da budamas wakinu, inlipo karta ant wiznos ir tiek walgi, jog wos kewpawo. Prinentias gerai, da priskini pitnus kiszenius ir parinesnis namon, kadi siudamas galetu saw pasaldint skudu faika bu siudamas. Sedias prije stato kriaucziusko, padje parnestas wiznias pries sawi ir be siudamas po wiena walgi; kada jau sieki usz pastutines, pamati dagubius, muvis wiznisa aplipusia. Filipus musi su ranku ir labai diaugesi, jog wienu ipu net septinius musias uzmuszi. Tasai narsus darbes in tokia puikiaj wiznijo pamest twinu grinczele ir kaima, o ejtie wiznijo kriauczius atsiskaiti ir labai diaugesi, jog tingojo ne teks. Isziedamas Filipas prisiwu prie ke pureis dideli matika ir parasi ant jio „K r i a u c z i u s M u s e , a n t k a r t s e p t i o n i s u z m u s z a . " Uzsi meti saw pugulei ant peczii, paemai lazda in ranka ir leidosi in kelonia.

Biskuti piningu, ka tewas dawi ant kelio, ne ant ikgai jam istezko, niekas jiam dangu ne pasiliko, kaip dirbt, arba boda kenst; ir kad dirbt ne mego, badas pradejo spaust, turejo ubagaut, ejdamas no kaimo in kaima, no mieto in mieto, o wis linksmas — dainudomas ir szwipaudamas.

Nurgarsis kelonia in saules karscozu, sedo wienu karta pa wiesja szakoto medzio, idant saw pasilset, apnalsint troszkima iz szaltinio ka szale medzio tekejo ir uszkanst pta duonus pausbogaus. Pasdriniaus, gardzei uzmigo. Ne trukus waziau karalus tuom paczui kelu, o paregejas mieganti, liepi tauri nuejt ir patiuret, kas per wakata. Taras karaliszka prisartintas prie jio ir perskaitias ant jio kepures parasa, persigandes, sugrizo pas karalu ir tari:

— Tas zmogus bausis! — wienu ipu septinius uzmuszi!

— Tas mums reikalingas — atsaki karalus, — ejkie ir publikui!
