The GRAPHOPHONE

Most fascinating inven tion of the age. Always ready to entertain. It easily makes and re ceives the music of bands, orchestras, vocalists or instru mental soloists. There is nothing like it for an evening's entertainment. Other so-called talking machines reproduce only words of cast-and-dried subjects specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. This is certainly an advance over the old gramophone and its records. The reproductions are clear and brilliant.

Graphophones are sold for \$10 and up. Manufactured under the patents of Bell, Edison and Gramophone Co. The Graphophone is a head- quarters of the world for Talking Machines and Graphophone Supplies. Write for catalogue.
