Most fascinating invention
of the age. Always
ready to entertain.
It requires no skill to operate
it and reproduce the
music of bands, orchestras,
vocalists or instrumental
soloists. There is
nothing like it for an evening's entertainment.

Other so-called talking machines reproduce
only records of musical and literary subjects
prepared in a laboratory, but the Graphophone
is not limited to such records. In the
Graphophone you can easily make and instantly
reproduce records of the voice or any sound.
Thus it constantly awakens new interest,
and its charm is ever fresh. The reproductions are
clear and brilliant.

**Graphophones are sold for \$10 and
up.**

Manufactured under the patents of Bell, Pathe,
Edison and Macdonald. Our establishment is head-
quarters of the world for Talking Machine and
Talking Machine Supplies. Write for catalogue.
