## JUOKUBAS

Vadas Kontrabandezniu.  
(Pulki istorija)

— Franas sivilpaukdamas žiurejo ir Nastazija atsielosz kercozije; iszgerias gerimas ja kaipi atjauino, veidas židejo, akis blizgejo, buvo linksmas, o Frano dabar tikrai grazia isziurejo, o podraug ir smagu jam buvo maziau negu kiti apsvaigintam žiuret in girtus; sededamas ir beziuredamas linksmi besizispejo teip-gi žiuredamas in eeseri ir Matjosiu, kuris glamonejo Jule. Senas kalvis tuotarpu su kitais rimojant ant stalo sumigo Matjosius beglamonedamas mergina staimine apie žiedus ir poterkas, ir pasikeles pasake, jog eiesu nupirkt tai.

— Ar cia jau teip esi apipazines, jog uzmanai eit vienas? — atsiliepe Franas.  
— Vis neaukleis tokiam mieste. — atsake Matjosius biski isziukianciai.  
— Asz eisiu drauge — tare Jule.

— Ir tu nezina? — atsake Nastazija. — Eisiu su jumis, paradisiu kur galima gauti...  
— Tai ir asz su migan-ciais nepasileku, eisme visi keturi — tare Franas pasikel-damas.

Iszsedamas isz usztales pa-zadino, teva kuris pakeldamas galva uszklause kur eina, o gava atsakima, jog in mieste su reikalu eina, tare niurnedamas: "Eikit, eikit, tik ilgai nebu-kit — mes czia luktersim", vel pagulde galva ant sudetu ran-ku ir snaude.

Jaunieje linksmi iszejo ant gatves. Visi dabar buvo dras-us, net ir Jule su Matjosiu buvo, kaipi kad gimtinam sa-vo kaime. Jule labai painiojo si kojos ir beveik turejo laikiti Matjosiaus, idant nepar-pult; linksmi in ji kalbejo be sijuokdama, jis teip-gi juokesi ir rode savo dantis merginai. Franas su Nastazija ejo pirma zinodami vieta, kur randasi krautuve, kurioje reikalingus daigtus Matjosiu galima bu-vo gaut.

Jule matidama languose vi-sokius grazius daigtus teip la-bai ju pageldavo, kad reikeje Nastazijai nuolat ja traukt usz rankoves, idant nepalik-t besiupsanzcia ir besotinanz-cia bent savo akis matomais dideliuose languose iszstatitus paredalus ir invarias brangin-as pasipuosimui. Jule rods turejo kels aukstus kiseniu-je suriztus skepataitej, bet ne zinojo ka usz tuos piningus nupirkt, kuriu ne ant vieno gero daigto neusztektu — o ji visko norejo.

Ineje in krautuve, Nastazi-ja noredama nusipirkt sau jop-ke, pradejo mieruotis padetas ant ilgo stalo, bet ne viena ja-netiko — vis buvo perma-zos.

— Tau tai tiktu — tare Ju-lei.  
— Bet asz piningu neturiu — atsake Jule liudnai.  
— Ka czia kalbet apie pi-nigus — atsake židelka kup-cziuviene. — Jaunikiai ira, tai ir piningai turi but.

Jule suprato ir slaptomis zvilgtelejo in Matjosiu. Matjosius stovėjo atokiai ir žiurejo in eilute stikliniu poterku, kurias iszrinko Julei.  
— Eiksz czia Julka — tare pamojes su pirsztu. — Priejus merginai, tare: — Iszsrink sau poterkas, asz nežinau kokios tau patinka. — Ar szios nebu-tu geros?

Mergina pradejo peržiurinet poterkas, kada prie jos priejo kupczuviene su jekute ranko-se.  
— Ka czia tuos niekus pir-kinet, geriau drabuži, kurs žmogui augszina — sztai turiu czia fain jopke, kuri padaris isz tavęs tikra panaite, ko pa-vides tau viso kaimo mergi-nos. Tik pasimieruok, o tikiu kad nenoresi jos palikt pas ma-ne.

Teip kalbedama beveik pri-verstinai nutrauke nuo mergi-nos jos perkeline jekute, o ap-vilko savo.

Didumo buvo gera, bet kai-miezka merg na, niekad nede-vedusi panazos neszeinas ar-ba mados, isziurejo joje kaipi baidikla žvirbliam pastatita kapnape. Peczi buvo teip bu-fais iszskelti kad beveik vi-sai pasilepe tarpe ju jos gal-va; per liemeni supesta bu-vo kad vos atkvept galejo, o isz tiesaus liemenio naujos ma-dos jeke padare juokings; pa-naazi buvo in kupranugari su dvim kuprom. Matjosius žiuredamas in mergina nusijuo-ke, bet nupeikt jam nedave kupczuviene, kuri tuoj, atsi-liepe.

— Ni, o ka ar negražu: kas suprantu mada, tas tikrai gal-stebets kaipi graziui guli, tik kvailis gal juoktis, nieko neiez-manantis — Aj-vai, kad tave galas, kaip gražu, kaip puiku kalbejo židelka sukindama mergina in visas pusias.  
— Tik tu pažiurek in szpigeli kaipi puikiai stovi — Ir nu-tempe mergina prie gan dideli viedrodzio.

Jule gedijosi pati saves, ma-tidama juokingai isziuriinti sa-vo paveikla, isztiese kaip ga-lejo kakla, idant nebut kupro-ta, bet veltu, bufai vis buvo sulig ausu. Pradejo nutrauki-net juos zemini, bet kupcziu-viene subare ja ir iszkoliojo, kad blyptom prie savo mu-zikisku drabuziu nenusimano ant ponizku.

Gudri židelka abiem uzriszo burnas, matidama kvailius ne-datirtus kaimiecius juose, o jiedu vel nenorejo pasirodit teiszmananzciais, tuo labiau kad ir Nastazija, kuri daugiau svieto buvo maciusi pritari-nejo kupcziuvienei, kuri usz tai augszina ja, vadndama iszmintinga ponia. Matjosius utmokejo po neilgam besideri-nimui 6 markias nors su dide-liu nenoru, nes mate jog jopke ir 3 neverta. Židelka inbru-kuose, dabar paeme deze su poterkom in vel pradejo girti savo tavora aizkindama ko-kios poterkos prie tokio pare-dalo tinku. Iszrinko dvi eilu-tes dideliu baltu poterku, aiz-kindama, jog tai pavidelo žemczingu padaritos, jog to-kias pterkas neezioja ant kak-

lo ne tik ponios, bet ir pati karalienė.  
Uszspirasze keliu auksinu, Jule nenordama daugiau traukt piningu nuo Matijo-sziaus kuris jau ir teip kelis rublius prakiszio, padejo nulu-dus, ataskidama, jog perbran-gios jai, kad teip usz du auk-sinu paleistu, tai paimtu.

Židelka nors ir teip gana ant ju uzdirbo, bet susirauke, taritum trojtiant ir atsake:  
— Kad imat mano krautu-vej ne tik jas, bet ir daugiau tavoro, o kaipo isz kaimo žmo-nes kurie man geriausi prie-teliai atiduosiu tau usz du auk-sinu, tegul bus mano nuotrota tau dovana, nes pirmu kartu pas mane esi idant paminetum mane kaipo gero veljanczia ir nenorinczia savo skriaudos.

Jule tikrai kupcziuvieneš žodzius palaikie usz viastein-giausius ir su dekingiste atida-ve du auksinus, kas buvo jai didelia nuotrota, viengot ant to visai nepaisie — džiaugesi kad parejus namon pasiredis puikiai, ko jai kitos pavidės.

Kada iszejo isz krautuveš, jau ant gatves buvo suvis ki-taip; žmoni buvo daug, bet tie žmones buvo daugiau in melinose bluzose, sumure, suo-dini, nes buvo tai darbininkai paleisti isz darbo ir ejo namon. Nevisi vienog ejo namon, dau-gelis tiesog in karczema, kur gere po darbu.

Franas czia turejo pažista-mu ir netrukus pasitikes su ke-liais vadinamas nuejo in kar-czema nepalikies ir Matjosius su merginom. Czia dabar vel prasidejo gerimas; Jule, kaipo grazi mergina tuojas atkrei-pe daugelio akis ant saves, prasidejo visoki szposai ir juo-kaiki, bet Jule vokiezkai nemo-kedama, visai ant ju neatrei-pinejo savo atidos, o vel neda-ve jei ramibes vienas isz Frano pažistamu augsztas sausas vai-kinas Jantzas kuris kaipi arti rubeziuas givenantis gerai mo-kejo svetimajai jiam kalba Jule suvisai pamirszo dabar apie Matjosiu kuris sedejo pasi-tautes in liudnai žiurejo in besiglamonejanczia ir bespo-saujanczia su svetimu jaunikiu mergina, o ji visai in ji ne pa-žiurejo. Rustieje apveikinejo jo szirdi, bet valdesi kaip ga-lejo, idant neparodit po nie-kuam, idant nepapult po pajuc-ka prusu.

Atejo jam iszganinga mielis kiti liepe pamet Jule, kaipo neteisinga mergina, kuri nors jau turi prota, kaipo patarpusi mergina, elgiasi teip nedorai ir isz jos gera pati isztikima moteris nebus, ka jau parodo aizskiai toke pasielgimas, kad del gražu žodziu jaunikiu, nors suvis svetimo, nepažiinst-mo jai, pamirszta apie ji, ku-ris priez valanda padare jai teip dideli malone — bet nu-budusi jo szirdije pavidu isz-trepre ta gera mieli ir vieton apvarstimo, pradejo rustintis ant pruso.

Jule gere su vaikinu, kuris apemes jos liemeni glaudie prie saves, kas Matjosiu da-vedinejo prie padukimo. Ne paisindamas suvis ant Frano ir Nastazijos, kuriu nemate su-vis, pasikele ir praedidamas pa-trauke Jule usz rankoves.  
— Eiva — tare — laikas jau, ten likes tevas laukia, o jau sake, idant ilgai neusz-truktume.

— Kas tau prie jos? — tare Jantz.  
— Daugiau negu tau! — atzere szarpiai Matjosius.  
— Ka tu szpicbunkel! — su-riko piktai prusuks.  
— Ka tu, pruse? — tare Matjosius mieruodamas ji blizganciom ir rustibia degan-ciom akimis.

Jantzas paszoko ugniuauzes kumsczias bet Matjosius pir-ma pasveikino ji savo kieta kumsczia. Jantzas uszsiaviro-jo, bet kad Matjosiazas smugis neapkvaitino jo priszoko prie savo priezro ir pastveres glebiu pradejo spausit isz visos gales besistengdamas parmuszt ant žemes. Matjosius kovoję per valanda ir galinejoj su Jant-zu, kuris negaledamas parnest parverte su koja kede po ko-jias Matjosius, kuriam susi-

pine kojos ir griuvo abudu ant grindu, neleidami viens kito nors Jantzas stengesi yisa gale kelias pasiekt priezinin-ko krutine, bet Matjosius su prasdamas tai nors girtas sten-gi ir nedaleist. Gal neilgai bu-tu galejes jau kovot bet jam in pagelba pribuvo tuojas kiti ypacz Franas ir Nastazija ku-ris paskire, nustume szlia Jantza, o Matjosius pasikele apsikruvines ir veržiesi prie-ziezo. Jule iszsketus dabar rankas stoji priez jį ir nelei-do. Net dabar ji suprato kas veikiasi, Matidama kruvins Matjosiu kuriam per dreska Jantzas veida pradejo raudot ir szaukt pagelbos.

Prieszininkai invirte veržiesi kiti prie kito degdami pasi-ustieka rustibia, sujudo visi esantie karczemoje ir tuojaus pasidare dvi partijos. Laima Frano ir Matjosiaus, kad jiems in pagelba tejo daugiau sandraugu, kuriuos atsivede senas kalvis jieszkantis sunas ir kitu, prasidejo smarki musz-tine tarpe partiju, kuri nezi-nia kaip butu pasibaigus jeigu neseno kalvio sumanumas, kuris pastveres nežinia isz kur viedra szalto vandens liejo ant visu. Szaltas vanduo iszgazdino padukusius žmones, o gal tik sustabde juos uzlieju-akis — bet pirm negu prusai kuriu puse buvo daug skait-ingesne szoko vel in muszi, jau kontrabanzciai buvo lauke.

Begte visi pabego.  
Kada jau pavojaus nereike besibaiset senas kalvis prunk-szteles ir garsiai nuspojoves piktai tare:  
— Pasutot vaikai! Prakeik-ti karviliai kodėl nesupratot ka davo! Pradet muszine sve-timam kraszte, visi galime czia inkliut kalejiman....  
Palaukejes kalbejo:  
— Begt isz czia reikia kuo greicziausia, idant nepapult in policijos rankas.  
Keike ir pludo Matjosius ir dukteri, kurie buvo to prie-zastim.

VII.  
Sugrizimas su spiritu.  
Jau buvo veliba naktis, ka-da isz Raudonosios iszejo su pilnom blytom spirito.  
Naktis buvo giedra zvaigz-des ant dangaus ekaiscziai bliz-gejo o siauras lankutis menuo menkai apzevictinejo sumigusi svetia. Tik kontrabandanzeszi vieni nemiegojo, kaip nemie-gojo ir rubezargis, vaikeszine-jantisi parubeziu su karabinu ant pecziu. Baisus jis buvo kontrabandanzeszim, jo paveik-las, jiems isziurejo giltines paveikla, kurio reget ne no-rejo visai.

— Ojt szviesa, gal but-mums labai bloga, — uszpra-naszavo Nastazija.  
— Teip, teip — pritarine-jo jai kiti, apart senos Grigie-nies kuri ejo paskui tikiai vi-todama ir pati jau nežinoda-ma ar turi atbot apie savo gi-vasti, ar linket jai galo.  
Isz visu galvu girtumas isz-garavo, visus iszblavivuo nak-ties vesumas ir baime.

— Sztai ir komara jau ma-tit — atsiliepe kas toks.  
Visu akis atsikreipe in ta-szali, kur szviesoje menuo ant kalno stovėjo kordono tri-ba.

Jule negalejo akiu atitraukt nuo jos nors norejo, szirdis jo neramiai beldeis krutineje. Iszkrikusie susikuopino invie-na kuopa ydant neteip but ma-tomais isztolo, ir ejo kloniu, ne-trukus kamara paslepe nuo kontrabandezniu akiu kalnas isz uszkurio matoma buvo tik virszunes medziu snauzanczi ant jos, letai linguodami gal-vomis. Tila aplink viespa-tavo ir tik retkarcziai griez-ligrieze nuolatos mainidama sa-vo vieta. Baime pažadinta kon-trabandezniuose paveiklus kordono prad-jo mazintis, jaunieje pradejo juokavot su merginom, bet seneni virai draude juoktis ir liepe vis tilet ir temit.

Prie-z juos atstume kelesde-szimtas žingeniu gulejo rube-zis kitoj pusej rubeziuas nedi-delis puszinelis. Temingi kon-trabandezniai prisilenke prie zemes, beveik keturpesti ejo prie rubeziuas besižalgidami. Senas kalvis liepe Julei sekt paskui ji, o merginai kuriai ir blusos nustipo nereikio dusik kartot, seke paskui teva kaipi szezelis jo. Jau buvo ant pat rubeziuas, jau tik smar-kiat pasileist pirmin, o uz bridzio laiko bus puszine, kur rubezargio nereikes bijot, bet vos atsilenke, ydant begt nuo a-suszko balsas: Stoi. — Nie-kas vienog to priakimo nepa-klause, taziaus visi pakriko in smarkiai, kaipi buris karve-liu, kad netiketinai ant ju nu-krinta vanagas iszlakszto smar-kiai plodami sprains, t-tp kontrabandanziai barskinda-mi savo bletom iszbeigiojo, o isz szalies rubezargio puole keli szuviai. Bet kontraband-neziai vieni jau buvo puszine kiti sukrito in rugius ir gra-bias; nieks nemislijo apie kiti vien kalve sustabde kvapus ar nejauczia savije kulkos isz karabino rubezargio.
